Free Stand Cabinets & Data racks

General

GTE Data Cabinets & Racks are Born from an innovative while you benefit from integrated engineering solutions based on top-quality system components, component data, system know-how
and design expertise throughout every aspect of GTE cabinets. It is a "state of the art" cabinet that satisfy the needs of structured cabling, as well as IT and video surveillance.

Features:

- 19" Well designed frame with precise dimensions.
- Toughened glass front door with door border and steel Side door.
- Several Cable Entries on top cover and bottom Panel with adjustable sizes.
- Meeting requirements of under-Base Cable entry/ventilation and prevention.
- Removable Side Panels, easy to install and maintain
- Standing or wall mounting installation
- Adjustable feet and heavy duty castors are optional
- Easy mounting installation.
- Adjustable feet as standard; castors, lockable castors, plinth,
- plinth with filter optionally
- GND/earthling kit.
- Racks can be installed in blocks

Standards:

Comply with ANSI/EIA RS-310-D , IEC297-2 , DIN41491;Part1 , DIN41494;Part7 , GB/T3047.2-92 & EIA Standard

Loading Capacity:

Static Loading: up to 220 Kg for Wall Mounted and up to 1250 Kg for Free Stand

Degree of Protection:

Standard protection rating IP20
IP40 on Request

Material:

Cold Rolled Steel 1.2mm & 1.5mm for WM
1.5mm & 2.0mm for FS

Surface Finishing:

Power coated with RAL Color7032 , 7035 , 7038 ,9003 , 9005 and others.
